Re: Raymark Site Operable Unit #1  
Request for ARARs

Dear Mr. Hartnett:

The Feasibility Study for Operable Unit #1 of the Raymark Site has been submitted to PADER. This letter formally requests that the Department develop action-specific Applicable or Relevant and Appropriate Requirements (ARARs) for Operable Unit #1. EPA previously requested chemical- and location-specific ARARs (March 19, 1991).

EPA anticipates preparation of a Proposed Plan in June 1991. Thus your efforts in submitting action-specific ARARs within 30 days or before June 4, 1991 will be appreciated. Thank you for your cooperation.

Sincerely,

Michael Towle,  
Remedial Project Manager
